

Pilot Academy Terms of Use

Effective date: 9 October 2026

Private educational project: Pilot Academy - Flight Simulation Training is a non-commercial flight-simulation training application. It is not an approved flight-training device and is not a substitute for certified aviation instruction, aircraft operating manuals, regulations, or professional training.

1. Purpose

The Academy organizes aviation learning material for private flight-simulation study. It is designed to work alongside Microsoft Flight Simulator 2020 and Microsoft Flight Simulator 2024 and includes original educational explanations, references to aircraft manuals and public online resources, and a research workflow for aviation-training videos.

2. YouTube Terms

By using features of the Academy that access or display YouTube content or data, the user also agrees to be bound by the YouTube Terms of Service (<https://www.youtube.com/t/terms>). Use of the YouTube API Services is also subject to the YouTube API Services Terms of Service and applicable developer policies.

3. YouTube content remains on YouTube

The Academy does not claim ownership of YouTube videos, thumbnails, titles or channel content. YouTube audiovisual content remains hosted and delivered by YouTube or the relevant publisher. The Academy does not provide offline copies or re-host YouTube videos.

4. Research and verification

YouTube videos are treated as research references. Aircraft-specific technical procedures should be cross-checked against current aircraft manuals, official simulator documentation, applicable aviation references and the exact simulator aircraft/version.

5. No account management or upload

The current YouTube integration does not require Google OAuth, does not upload videos, does not edit YouTube metadata, does not manage playlists or comments, and does not act on behalf of a YouTube account.

6. Privacy

Use of the Academy is subject to the Pilot Academy Privacy Policy. The Google Privacy Policy is available at <https://policies.google.com/privacy>.

7. Intellectual property and independence

Third-party trademarks, videos, aircraft manuals and other referenced materials remain the property of their respective owners. Pilot Academy is an independent educational project and is not affiliated with, endorsed by, or sponsored by Microsoft, Asobo Studio, YouTube, Google, aircraft manufacturers or third-party aircraft developers. Microsoft Flight Simulator and YouTube are referenced only to describe compatibility, source attribution and API functionality.

8. Changes

These terms and the public compliance pages may be updated when the Academy's functionality or applicable YouTube API requirements change.
